

**Salt Lake Knitting Guild
2017 Mini Workshops**

Saturday, January 14, 1pm – 4pm

**Good Shepherd Lutheran Church
8575 South 700 East, in Sandy, Utah**

Please plan to participate in 1-3 of the first 4 listed mini-workshops, OR in Carolyn's 2 ½ hour Scarf extravaganza described on page 2.

Katy Carroll – Joins: Adding the next yarn

We'll cover spit-splicing, Russian join, flexible fabric glue (gasp!), and maybe the magic knot. For my class, knitters will need a few yards of 100% wool worsted weight yarn, a (not too blunt) tapestry needle, and sharp scissors.

Amy Hargreaves – Cast Ons & Bind Offs

Students will need to bring worsted or aran weight yarn -- wool or wool blend is best because it's stretchy. One pair of straight needles and two DPN's of the same size -- appropriate for the yarn. Also, please knit a stockinet swatch, 20 stitches wide by approx. 1.5 to 2 inches long with the same weight yarn, do not bind off, do not break yarn, leave it attached to the ball. We will make a beverage coaster with i-cord edges. The swatch is to practice the i-cord bind off in case the student doesn't knit quite fast enough to make a square in the time available. It will also provide a swatch so that they will know how many stitches to cast on for the coaster. I will bring samples and handouts.

Sarah Scott – Double knitting

For my class the students need two different solid colors of worsted weight yarn, and appropriately sized needles, probably size 7 or 8. I will have a hand-out for my students on that day.

Susannah Hill - Buttonholes

I'd like anyone who wants to practice buttonholes to bring some worsted weight or heavier yarn and needles.

Carolyn Chen – Scarf w/ variegated yarn

Learn one application for showing off variegated yarns similar to the Strandwanderer shawl. This class will make a RECTANGULAR version which can be turned into fingerless mitts, scarf or a hat band.

Expect this workshop to take 3 hours – it is not on the 30 minute rotation !

Supply List:

Variegated Yarn with color lengths of 7” to 9 “ long. DK, sport or worsted, recommended.

Straight or circular needles appropriately sized for your weight yarn.

Openable markers

Note taking tools (paper, pencils) - No handouts will be provided.

Optional: (tools to make it easier to pick up stitches)

Double pointed needles, smaller size than your project needles

Smooth, contrasting waste yarn. Omega #2 nylon thread is hefty, and pulls out easily.
